## TRAMWAYS AND LIGHT RAILWAYS.

## (GREAT BRITAIN.)

This Return has been presented to Parliament in compliance with an Order of the House of Commons dated 17th May, 1927.

Parts I, II and III deal with financial accounts and Part IV with statistical information relating to tramways and light railways on public roads, and in each part Local Authorities' and Companies' Undertakings are grouped in separate portions A and B. The totals from the several parts are brought forward to a summary table on pages 10–11 ; this summary shows the figures for all undertakings in Great Britain. A second summary table on pages 6–7 shows the principal results for 1913–14, and for the last four years, for the Undertakings of Local Authorities and Companies respectively, and for Great Britain generally.

The data in Part IV are confined to operating Undertakings, but information as to non-working Undertakings, lines leased or worked and undertakings not open for traffic is given in Supplementary Tables Nos. 1 and 2.

A list of Orders made under The Statutory Undertakings (Temporary Increase of Charges) Act, 1918 (8 and 9 Geo. V. c. 34), and the Tramways (Temporary Increase of Charges) Act, 1920 (10 and 11 Geo. V. c. 14), and in force during the period covered by the Return will be found in Part IX.

A list of Acts and Orders governing the various Undertakings is included on page 45.

At the end of the Return will be found brief notes explaining the basis on which the Tables have been compiled.

The abnormal factors which affected the industries of the country during the greater part of the year 1926 should be borne in mind in comparing the figures for the period covered by the present Return with those for preceding periods.

### FINANCIAL ACCOUNTS.

It will be seen from the Summary Table on pages 10–11 that the total paid-up Capital of Local Authorities in Great Britain is £80,093,312, of which £42,166,317 has been redeemed, or set aside for redemption, leaving a Net Capital Liability of £37,926,995, compared with £37,149,639 in the previous year. The total paid-up Capital of Companies is £21,079,385, of which £1,112,289 has been redeemed, or set aside for redemption, leaving a Net Capital Liability of £19,967,096, compared with £20,091,060 in the previous year.

The total Capital Expenditure on Tramways by Local Authorities to the 31st of March, 1927, was £78,790,595, compared with £76,761,999 in the previous year, and by Companies to the 31st of December, 1926, was £19,819,910, compared with £19,898,087, making a total Capital Expenditure on Tramways of £98,610,505, compared with £96,660,086.

Increased fares sanctioned by Temporary Orders operated during the year in respect of 43 undertakings, compared with 47 undertakings in the previous year.

The Gross Receipts earned by Local Authorities were £23,060,376, compared with £23,918,622 in the previous year, and the Working Expenses £18,793,121, compared with £19,009,122, leaving the Net Receipts at £4,267,255, compared with £4,909,500. The Gross Receipts earned by Companies were £3,856,159, compared with £4,292,733, and the Working Expenses £3,335,340, compared with £3,589,495, leaving the Net Receipts at £520,819, compared with £703,238. The combined Gross Receipts were, therefore, £26,916,535, compared with £28,211,355, the combined Working Expenses £22,128,461, compared with £22,598,617, and the combined Net Receipts £4,788,074, compared with £5,612,738.

(28172) Wt. 14697/1173/954 250 11/27 Harrow G. 5/51

The ratio of Working Expenses to Gross Receipts was 81·50, compared with 79·47 in the previous year, for Local Authorities, and 86·49, compared with 83·62 in the previous year, for Companies. The combined figures give a ratio of 82·21 in 1926–27, compared with 80·10 in 1925–26.

Tramway Undertakings operated by Local Authorities received in the year £655,242 from local rates, compared with £418,933 in the previous year, and contributed £334,080 in relief of rates, compared with £342,049 in the previous year.

The total Net Income from Tramways, after adjustment in respect of the duplication arising out of the inclusion of rents of leased lines in the accounts of both Lessees and Lessors, was £6,113,163, compared with £6,617,046 in the previous year. With the sums brought forward from the previous year and, in the case of Local Authorities, the sums transferred from other businesses, the total Net Income available for distribution was £6,318,727, compared with £7,034,352 in the previous year, and of this sum £2,058,277 was appropriated for interest charges and dividends, compared with £2,039,208, £1,917,281 for repayment of debt, compared with £1,800,503, and £1,413,225 for reserve and renewal funds, compared with £1,791,521, while, in the case of Companies having other businesses, £182,021 was available from Tramways for purposes of appropriation over various heads, compared with £328,517 in the previous year.

Of the 168 Tramway Undertakings owned by Local Authorities, 156 were earning income in 1926–27. The working results, which include other businesses (such as motor omnibuses and trackless trolley services) forming part of the Tramway Undertakings, have been grouped, for convenience, into the following six classes :—

Class 1. Undertakings which showed a credit balance for the year after meeting all charges, including Capital Redemption and Reserves.

Class 2. Undertakings which, after meeting all charges, including Capital Redemption, made Reserves in excess of the amount available from the year's working.

Class 3. Undertakings which, after meeting Interest and Capital Redemption, were unable to meet Income Tax and other appropriation charges in full.

Class 4. Undertakings which, after meeting Interest charges, were unable to meet Capital Redemption in full.

Class 5. Undertakings which were unable to meet Interest charges in full.

Class 6. Undertakings which were unable to meet their working expenses.

The table appears on page 9.

# EXPLANATORY NOTES.*

## FINANCIAL ACCOUNTS.

The classifications are based on the standard form of accounts for Tramways adopted by Local Authorities and include the amendments to that Form recommended in May, 1923, by the Committee appointed by the Minister of Transport to suggest such instructions as may be necessary to ensure that the accounts furnished for the purpose of the Tramways Annual Return are compiled on a uniform basis.

### Capital Receipts.

Capital authorised, paid up and redeemed at the close of the financial year in respect of the whole Undertaking.

### Net Capital Liability.

Capital paid up less Capital redeemed and/or less funds set aside for redemption of capital.

### Capital Expenditure.

In the case of Local Authorities where loans have been raised for renewals, the capital expenditure shown is the cost of existing works, plus the superseded capital still to be redeemed. Expenditure on power stations includes land, buildings, plant, &c. Expenditure on other businesses is shewn only in the case of Local Authorities.

### Revenue Account.

#### Income.

*Passengers.* Includes income from season and contract tickets and special hire, and the amount collected from passengers by the operating undertaking in through running over other systems.

*Through Running.* Amounts received from other undertakings for traffic receipts from through running over own system are added, and corresponding amounts paid to other undertakings are deducted.

*Advertising on Cars and Miscellaneous.* Includes advertising on cars less expenses, net rents accruing from property the cost of which has been included in expenditure on Tramways. Sales of unclaimed property, transfers fees, &c.

#### Expenditure.

The classification of revenue expenditure follows that of the Capital Account and provides for the appropriation of all expenditure chargeable to Revenue Account. The detailed classification as agreed and recommended for adoption is set out in the report of the Committee.

Power expenses when generated by the undertaking are exclusive of interest and redemption of debt charges but inclusive of repairs to power stations.

*Through Running.* Amounts paid to other undertakings for working expenses of through running over own system are added and corresponding amounts received from other undertakings deducted.

### Net Revenue and Appropriation Account.

*Other Income.* Includes Bank Interest and Interest on Investments applicable to Tramways Revenue Account and amounts received from other undertakings for Interest and Debt Charges on Tramways Capital Assets.

*Other Businesses.* Amounts transferred from or to the Tramways account in respect of other businesses, which, under statutory powers, are deemed to form part of the Tramways Undertaking. This applies generally to Local Authorities, but not to Companies.

*Joint Undertakings.* Amount derived from Tramways Income available for Interest and Dividends, Debt Redemption, Reserves and Income Tax. Limited to Companies whose Net Income from Tramways cannot be allocated specifically to those heads.

*Reserve, Renewal and Depreciation Funds.* Includes all Tramways Reserve Funds, but excludes Funds for Redemption of Capital. In the case of many Companies the Reserve Funds have been provided for other businesses besides Tramways and the only figure useful for this publication is the amount charged in the year to the Funds of the Companies for Tramways Renewals.

* These notes are set out in fuller detail in Appendix B.3 to the "Report of the Committee appointed to consider the form of the Return relating to Tramways and Trackless Trolley Undertakings," dated May 31, 1923, published as a Non-Parliamentary publication.

## STATISTICAL RETURNS.

MILEAGE.—Mileage authorised, open for traffic, and worked, at the close of the financial year.

CARS.—Analysis of numbers, and particulars of seating capacity, at the close of the financial year.

PASSENGERS CARRIED.—Number of single journeys paid for during the period covered by the return, e.g. a return ticket has been taken to represent two passengers, a workman's weekly ticket available for 12 single journeys to represent 12 passengers and season tickets have been included on the basis of an estimated number of journeys taken. (See note below in reference to Through Running.)

CAR MILES RUN.—Total number of miles run during the time cars have been engaged in service work. Trailer miles are counted as Car Miles, e.g. a two-car unit running five miles equals ten car miles. (See note below in reference to Through Running.)

CAR HOURS WORKED.—Total number of hours each car has been out of Depot in charge of the Traffic Department for Service work. Departmental running (trial trips, breakdown work, &c.) is not included. (See following note in reference to Through Running.)

THROUGH RUNNING.—In cases where Through Running is in operation, i.e. where a line is operated jointly by two or more undertakings, two figures are given in respect of—

Passengers carried,
Car Miles run.
Car Hours worked.

The figures in roman type represent the result of operation of the cars owned by the Undertaking and those in italics the working over the lines of the Undertaking by all cars irrespective of ownership.

CAR MILES PER CAR HOUR.—Car Miles (excluding Trailer Miles) run over the lines of the Undertaking divided by the corresponding car hours.

ELECTRICITY, CONSUMPTION.—The total traction units consumed includes all units (generated and/or purchased) used for car lighting and in running the Car Mileage.

The traction units per car mile figure is obtained by dividing the total number of traction units by the corresponding Car Miles.

AVERAGE FARE PAID PER PASSENGER JOURNEY.—Total Income from "Traffic-Passengers" divided by the number of Passengers carried in the cars of the Undertakings.

AVERAGE FARE PER MILE.—Total amount chargeable for all the fare stages divided by the aggregate mileage of such stages.

AVERAGE TRAFFIC INCOME PER CAR MILE AND AVERAGE TRAFFIC INCOME PER ROUTE MILE.—Total Income from Traffic divided by the Car Miles run over the systems and the Route Mileage of the Undertakings respectively.

AVERAGE WORKING EXPENDITURE PER CAR MILE.—Total Working Expenditure divided by the Car Miles run over the lines of the Undertaking.

OPERATING RATIO.—Total Working Expenditure multiplied by 100 and divided by Total Income.
